SUMMARY

Full Stack Developer pursuing an M.Sc. in Information Technology with hands-on experience building web applications, desktop software, browser extensions, and AI-powered tools end-to-end. Skilled in Python, PHP, JavaScript, React.js, FastAPI, and SQL, with a focus on clean, scalable code and shipping practical software.

EDUCATION

Master of Science (M.Sc.) in Information Technology - Pursuing

Bachelor of Computer Applications (BCA) - Graduated 2026

Bhakta Kavi Narsinh Mehta University (BKNMU), CCSIT College, Junagadh, Gujarat, India

INDEPENDENT PROJECT WORK

2025 - Present

- Designed full-stack web apps, desktop applications, browser extensions, and developer tools from concept to implementation.
- Built REST APIs and backend services using Python, FastAPI, PHP, Node.js, and SQL databases.
- Developed responsive interfaces with React.js, Next.js, JavaScript, HTML5, CSS3, Bootstrap, and Tailwind CSS.
- Implemented authentication, database integration, API communication, Git workflows, debugging, and performance optimization.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, PHP, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Bootstrap, Tailwind CSS, Responsive Web Design

Backend: FastAPI, Node.js, Express.js, REST API Development

Databases: MySQL, SQLite

Tools: Git, GitHub, Docker, Postman, VS Code, Figma

Development Skills: Authentication (JWT), API Integration, JSON, Desktop Application Development, Browser Extension Development, Software Architecture, Debugging & Testing, Problem Solving

PROJECTS

CodeGuard OS - Offline Source Code Analysis Platform

Tech Stack: Python, FastAPI, Next.js, SQLite, JavaScript

Developed an offline source code analysis platform that scans projects for vulnerabilities, code quality issues, dependency risks, and architecture insights. It analyzes full codebases locally and generates reports and project health metrics without sending data externally.

Key Features: Multi-language analysis, ZIP/folder scanning, vulnerability detection, dependency and structure analysis, code quality assessment, HTML/PDF reports, metrics dashboard, repository architecture visualization, and offline-first local storage.

Additional projects - including web applications, desktop software, browser extensions, and AI tools - are available on my GitHub profile.

ACHIEVEMENTS

- Developed multiple full-stack applications and developer tools, from CodeGuard OS to browser extensions and desktop software.
- Shipped an offline-first security analysis platform covering vulnerability detection, dependency analysis, and reporting.
- Maintain an active GitHub portfolio showcasing practical, working software projects.

LANGUAGES

English, Hindi, Gujarati
